HI FRIEND!

Welcome to the Winter Fun Pack! I hope that you'll enjoy these simple activities in the midst of cold, long winter days. These were designed to add a little "spice" to your days, and to especially help in getting the wiggles out in a way that might be a little more productive and wholesome than just climbing the walls;)

INCLUDED ACTIVITIES-

- Get Moving Bingo is a fun way to engage your children in marginally controlled activities (and even a little sibling encouragement) when cabin fever is getting the best of you all. You'll find a few board variations so that everyone can have their own. Select randomly and read aloud an activity from one of the boards and have any child that has that activity on their board complete the task, then place a mark on that space. The first child to complete a row, column, or diagonal line wins!
- Winter Scavenger Hunts provide an opportunity to search for everyday objects in an intentional way, both inside and outside. You can even peer through your window if temperatures prohibit outdoor excursions. A bonus is that it can be used for simple copywork or spelling words!
- Snowflake Math adds an extra hint of winter fun to the subject of math. Use the provided numbers and symbols on the Snowflake Math page to build mathematical equations or utilize the ten frame for more fun!

I hope that this simple, fun pack will add a little warmth to cold days this winter season!

BLESSINGS!
